

ICA in support of change in the Life Sciences

for Agriculture – Food – Forestry - Natural Resources – Rural
Development – and the Environment

Simon Heath

Secretary General

ICA's vision

is to enhance our members' success in the international market place, in Europe and globally, by providing the environment to support the sharing of experience, to cooperate in new ventures, and to benefit from the resulting synergy.

Benefits of the ICA Network

- The only **open general network** covering all of Europe
 - **Professional updating** through Conferences and Workshops
 - **Membership of a “professional club”** – networking and establishment of communities of practice
 - **Linkage to developments worldwide** through international associations – APLU, CFAVM, GCHERA
 - **Mutual support from European Networks** in our discipline area through linkage of ICA's Standing Committees
 - **Involvement in projects** challenging the issues facing European higher education institutions
-

Structure

- ICA General Assembly of Rectors and Deans
 - ICA Council linking ICA Board and the Standing Committees
 - ICA Standing Committees
 - ICA Board of Rectors/Deans
 - Secretary General and secretariat
 - Project groups
-

Future ambitions

- Execution of new projects, either leading or as a partner
 - Representation of Life Sciences at the European level
 - Development of regional and global networking activities
 - ICA University – Enterprise Forum
 - Development of the European Accreditation Agency for the Life Sciences (EAALS)
-
